

GRP Swingback Steps

The Product

The Murdoch GRP swingback steps are manufactured to withstand vigorous everyday usage. Carrying the EN131 professional label means that the product has been tested to withstand at least 50,000 uses. The fibreglass stiles make this step your ideal partner when working around electricity. The spreader arm makes opening/closing of the stepladder simple, plus a heavy-duty tool tray creates another user-friendly touch.

Features include:

- Tested to 30,000 Volts
- 80mm deep treads for comfortable standing
- 2 locking arms for safety and usability
- Large anti-slip feet for ultimate grip
- Handy Tool Tray
- Load rating 150kg
- EN131 Professional

Code	Description	Closed Length m	Base Width m	Max Working Height m	Weight KG
